PROFESSIONAL SUMMARY

Frontend Developer specializing in React, Next.js, and modern JavaScript frameworks with full-stack experience using Node.js, PostgreSQL, and MongoDB. Skilled in building scalable, responsive, and accessible web applications with REST API integration, authentication systems, and performance optimization. Proven ability to deliver production-ready solutions that improve workflow efficiency and user experience.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, HTML5, CSS3**,** React, Next.js, Vue, JQuery, axios, Tailwind CSS, Zustand
Backend & DB: Node.js, Express, MongoDB, PostgreSQL, Firebase, Prisma
Testing: Mocha, Chai, Unit Testing, TDD
Tools & Design: Git, AWS, Vercel, Postman, Figma, Photoshop
Concepts: Responsive Design, Mobile-First Development, RESTful APIs, API Integration, Authentication, RBAC, Debugging, Deployment, SDLC, W3C Standards, Accessibility (WCAG), Performance Optimization

TECHNICAL PROJECTS

Water Station Online Ordering System – *Next.js, React, Prisma, PostgreSQL | Jan 2026 – Present*
- Built real-world ordering platform with multi-role authentication (Admin, Rider, Customer)
- Developed complete order lifecycle system with tracking and assignment logic
- Reduced manual order processing by digitizing workflow automation
- Created synchronized dashboards improving operational visibility
- Optimized performance for mobile and low-bandwidth users
- Implemented secure API routing and structured error handling

Full-Stack Application Portfolio – *MongoDB, Express, React, Next.js, Vue.js, Node.js*
- Developed production-style apps including e-commerce, booking, and social platforms used to simulate real-world system architecture
- Designed database schemas, authentication logic, and CRUD systems
- Integrated frontend clients with REST API backends

Front-end Freelance Projects/Gigs – *React, Next.js, Tailwind*
- Built responsive landing pages from design mockups
- Improved performance, accessibility, and cross-device compatibility

WORK EXPERIENCE

Operations Manager
MariClaire Retail & Services (*Family-Owned*)   *2020 – 2024*
- Scaled production from ~20 to 150–300 units daily through workflow optimization
- Supported expansion enabling launch of additional branch location
- Managed inventory, sales tracking, and reporting
- Analyzed customer trends to improve efficiency and service delivery

EDUCATION

Full-Stack Web Development – Zuitt Coding Bootcamp
BS Aviation Technology – Indiana Aerospace University

CERTIFICATIONS

Tech Career Program: Full-Stack Web Development – Zuitt, *September 2025*
Microsoft Certified: Azure AI Fundamentals (AI-900) – *June 2025*
Tester Essentials: Unit Testing – Zuitt, *January 2026*
Google Foundations Data, Data, Everywhere – *December 2025*
Career Service Professional Eligibility CSC Philippines – *October 2024*
